

February 26, 1976

done so much work in this area, it is only fitting that his name should be on the bill. So, I would ask that you reconsider it for that specific motion.

PRESIDENT: Before we commence debate on this matter the Chair would like to announce two distinguished guests under the south balcony. Dr. Ricardo Fernandez, recently appointed by the Governor of Wisconsin to head the Council for Spanish Speaking People in the State. Also, Mr. Pasquale Marquez who is now with the U. S. Department of Justice, Community Relations Division from Kansas City. Thank you gentlemen for being with us. We are very happy to have you here. Senator Frank Lewis.

SENATOR F. LEWIS: Mr. Chairman, may I ask two questions of Senator DeCamp.

PRESIDENT: It is alright with me.

SENATOR F. LEWIS: That is what I wanted to check with first. Senator DeCamp where is this bill that you are going to take the parts of and replace in this surgery with this 432?

SENATOR DE CAMP: Okay, 782 was voted out by the Judiciary Committee.

SENATOR F. LEWIS: Is it on the board?

SENATOR DE CAMP: Well, rather than report it to the floor, the Judiciary Committee discussed it, the members, and they felt that rather than run another piece of paper across and spend more legislative money and more legislative time, since the issue had been debated and since there was a bill on Final we would utilize that bill to put the contents of this other bill in and thereby avoid more procedures, more time. As I said, the issue has been debated and we also felt it proper since Senator Chambers has done a lot of work on this that it be the bill that he had worked on so hard and that it failed that we put the contents of this other bill into, the sheriff's ask that this be done as quickly as possible. Senator Chambers has had it discussed with him and I understand that he is in agreement. That is all that there is to it. It is really quite simple.

SENATOR F. LEWIS: Mr. Chairman, I know that Senator DeCamp is very concerned about the paper that is why he just brought back the other bill to make another Final Reading copy of. But let me explain to you what has happened and if the body wants to make this a priority bill that is alright. There is an easy way to do that and that is to say I move 833 be advanced to the head of General File and move it across the board, 835 or whatever number he has. I think that would probably be a bad practice to take a number and get it out simply for the purpose of getting it ahead on General File. I think that Senator DeCamp has got the option of making that a priority bill. If he is getting that kind of pressure from the Sheriff's, as far as Senator Chambers needing claim to fame with his name on another bill, I hardly think so. I think that he is probably better known than anybody in the body now. I want to keep his popularity down a little bit, so I'm certainly not going to let him jump up and grab some additional headlines by the use of this cunning device of Senator DeCamp's.
